

# Visiting the Akron Art Museum

**AAM Social Stories**

Today I will be going to the Akron Art Museum!

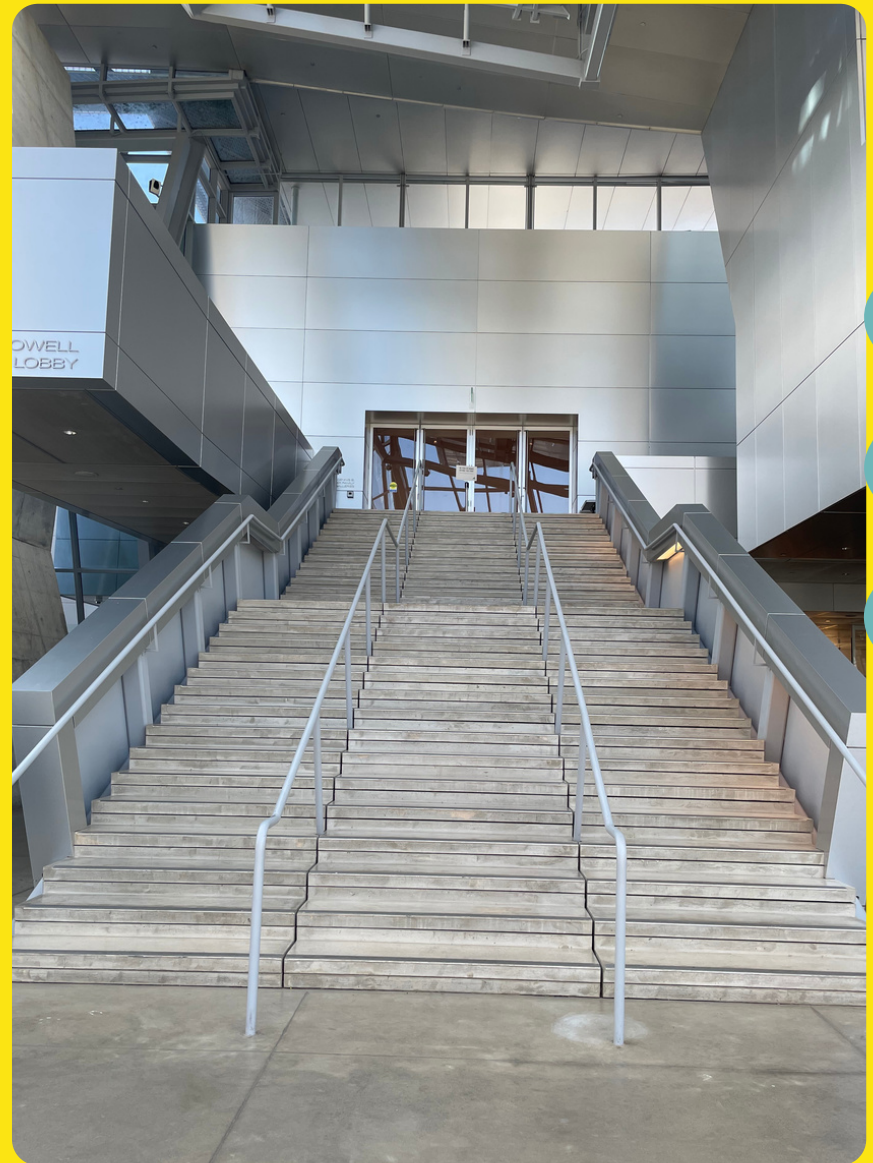

When I enter the Museum, my grown-up and I will be greeted at the front desk.

My grown-up will help us check in with a Museum worker.

The Museum worker will tell us all of the fun things going on at the Museum.

I will see a big staircase, an elevator,  
and windows all around me.

There will be some sculptures  
and a big, colorful artwork  
to look at in the lobby.

If I go to the left of the front desk, I will get to explore and play in Open Studio.

If I head towards the back of the Museum, I will see the Museum Shop and will play with some fun art activities.

If I need to go to the bathroom, I can find it on the first floor by following the signs.

If I take the staircase or elevator, I will head to the second floor and see the art galleries.

While in the galleries, Museum guides will be there to answer any questions I may have.

I will be reminded that I can look at the artwork, but cannot touch it.

I will get to inspect so many different types of artworks like paintings, sculptures, prints, and drawings.

If it's a nice day, my grown-up and I can enjoy the beautiful garden space outside and see some cool sculptures & art.

When it's time to leave, I will go out the front door with my grown-up and say goodbye to the Museum staff.

# THANK YOU FOR VISITING!
